The above vacuum unit type has been determined to be **IN COMPLIANCE** with the CRI Vacuum Cleaner IAQ Testing Program requirements

A CRI Vacuum Cleaner IAQ Testing Program green label with the assigned I.D. #17031 may be applied to this model and other similar models that have the same operating performance characteristics as the approved vacuum unit type tested.

If an authorized vacuum cleaner model is changed in any substantial manner affecting the performance characteristics as demonstrated by the original test unit type, the modified unit type must be submitted for testing.
